Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

The application contains Claims directed to the following patentably distinct species of the claimed invention.

- I. Species of Fig 1 drawn to an intensity based registration method as disclosed in Para 0101 of the description. Also see Claims 1 and 2 as an example.
- II. Species of Fig 2 drawn to magnitude based registration method as disclosed in Para 0103 of the description. Also see Claim 5 as an example.
- III. Species of Fig 3 drawn to registration method for holographic phase images as disclosed in Para 0105 of the description. Also see Claim 9 as an example.
- IV. Species of Fig 4 drawn to a registration method for holographic complex images as disclosed in Para 0107 of the description. Also see Claim 13 as an example.
- V. Species of Fig 5 and 6 are drawn to a simplified method of registration of holographic images that eliminates the calculation of confidence value as disclosed in Para 0010 and 0110 of the description. Also see Claim 21 as an example.

The inventions are distinct from the other because of the following reasons: The inventions as disclosed are distinct due to different structure and usage.

Applicant is required under 35 U.S.C 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently no Claim appears to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and **a listing of all the Claims readable thereon, including any claims subsequently added.** An argument that a Claim, is allowable or that all Claims are generic is considered non responsive unless accompanied by an election.

Should applicant traverse on the ground that the species are not patentably distinct, the applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, If the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in rejection under 35 U.S.C 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).
